Dapto Draught Our standard lager that we've taken the liberty of tweaking. Brewed with the finest pilsner malt, and a late addition of Hallertau and Saaz hops for flavour and aroma. This beer has a crisp clean palate, with a low easy bitterness, pale golden in colour, with a crisp mellow finish.

South Peach Our summer fruit beer selection. A classic infusion of wheat beer and peaches produces this sweet, yet refreshing summer beer. Modelled off a Belgian Peche, the South Peach starts sweet and peachy, and finishes dry and slightly tart.

Snowboard - Hefeweizen - An unfiltered German styled wheat beer, the Snowboard is a dry, flowery, and easy drinking addition to our Winter Seasonal range of beers. Brewed with a grist consisting of 60% wheat malt and 40% pilsner malt, this brew exhibits a slight clovey spiciness, and a crisp finish, with very little hop bitterness. A smooth, delicate, and appetizing beer. - 4.6% abv
